

BARTON HILLS VILLAGE UTILITY PERMIT PROCESS

Prior to any work being performed by utilities in Barton Hills Village (BHV), a Utilities/Right of Way permit must be completed (unless a franchise or other agreement with BHV exists).

The permit form is available on the Barton Hills Village website (www.vil-bartonhills.org) or from the Clerk's Office, 199 Barton Shore Dr, Ann Arbor MI 48105, 734-222-5209, bhvclerk@comcast.net.

The completed form must include attachment of all materials required to be submitted for a similar permit from Ann Arbor Township.

The application/materials will be reviewed by the BHV Zoning and Planning Administrator, the BHV Superintendent and the BHV President, who may consult with Ann Arbor Township as needed for clarification.

The application may be presented to the BHV Board of Trustees for review if the above BHV representatives determine review is necessary.

BHV may add any conditions to the project deemed appropriate based on the review.

BHV approval is required before work can begin, regardless of other jurisdictional permit approvals.
